HAND SANDING      MINI SANDERS      ECCENTRIC SANDERS      RANDOM ORBITAL SANDERS

# 01

## Abrasive materials

---

- Improved abrasive grains together with an electrostatic method of application ensures even depth of cut over the entire surface of the OneTech abrasive material.

- The film backing of the abrasive materials ensures high quality of sanding and an increased service life even on the edges of processed parts.
- The additional stearate coating protects the abrasive material from clogging and guarantees up to 2-times longer sanding in comparison with the classic abrasives.

## SANDING DISC

Ø 35 mm / without holes

8' (200mm)	ROUGH AND FINAL	NT11-0200-SW48	48

- Lamb's wool polishing discs are compatible with virtually all rotary polishers.
- They provide an optimized balance between rough and final finishing.

## MICROFIBER CLOTH

- 80% polyester
- 20% nylon

DIMENSION	COLOUR	DENSITY	PRODUCT CODE	PCS./PACKAGE
40 x 40 mm	GREY	500 g/m2	FLUFFY	2
40 x 40 mm	GREY-YELLOW	500 g/m2	POLISH EXTREM	1
40 x 40 mm	GREY	500 g/m2	FLUFFY-50	50
40 x 40 mm	GREY-YELLOW	500 g/m2	POLISH EXTREM-50	50

- It is a seamless high-quality professional microfiber cloth with basted edges for surface polishing.
- The cloth can remove dirt, dust, spots, and excess polishing compound. It doesn't leave streaks and fibers.
